Quick Start Guide

Cordless Robotic Pool Cleaner

AIPER® bring vacation home

1. Charging

Charge the device before initial use. Ensure that the charging port is dry. Do not charge the device in direct sunlight.

2. Choosing a Filter Before Cleaning

The device includes a replaceable MicroMesh™ ultra-fine filter and a filter box.

Filter Box

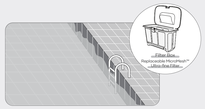

Replaceable MicroMesh™ Ultra-fine Filter

· Use only the filter box when there is excess visible debris.

· Use both the filter box and the replaceable MicroMesh™ ultra-fine filter when debris is minimal, and water appears cloudy or contains algae.

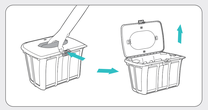

3. Cleaning the Filter Box

Remove the filter box as shown.

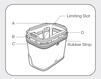

Press the latch on the filter box and lift the top shell handle to open it.

Empty the filter box and remove the replaceable MicroMesh™ ultra-fine filter.

Remove the A, B, C, and D latches on the replaceable MicroMesh™ ultra-fine filter rubber strip from the limiting slot.

Rinse the replaceable MicroMesh™ ultra-fine filter and filter box separately.

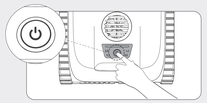

The replaceable MicroMesh™ ultra-fine filter needs to be rinsed inside and outside. Scrub it by hand if necessary.

4. Turning On/Off

Press and hold ⏻ for 2s to turn on/off the device.

5. Choosing Cleaning Mode

By default, the device starts in Smart Mode. Press the button briefly to cycle through and choose one of the four cleaning modes.

- **Smart Mode:** Cleans the pool walls and floor, planning its path based on battery level.
- **Floor Mode:** Cleans the pool floor in an S-shaped route, without climbing or cleaning walls.
- **Wall Mode:** Cleans the pool walls in an N-shaped route, without cleaning the floor.
- **Periodic Mode:** Cleans the pool floor automatically for about 45 minutes every 48 hours over the course of one week when fully charged.
